

Education Panel Meeting Agenda for Monday, October 17, 2022

Our next Panel meeting is Monday at 4:30 p.m. on Zoom at: **ALL MEETINGS USE THE SAME ZOOM LINK:** <https://us02web.zoom.us/j/82856731000>

Kim Haverkos has invited four Thomas More students to talk about how their K-12 educational experience has left them apathetic and even nihilistic about life. As a New York Times article states: *Teenagers Are Telling Us That Something Is Wrong With America*, <https://www.nytimes.com/2022/10/11/opinion/teenagers-mental-health-america.html?referringSource=articleShare>

Our job as a panel is to 1) understand how our educational system is failing to respond to the social failures of our time, and 2) change our local conversation so that we can come together as a community to better educate and raise our children. After talking with Kim's students, we will explore how we might do both.
